### 4. FIRST AID MEASURES

Inhalation Provide fresh air, warmth and rest, preferably in a comfortable sitting

position. Seek medical attention.

Skin contact Remove contaminated clothing. Rinse skin immediately with plenty of

water. If skin irritation persists, seek medical attention.

Eye contact Flush eyes with cold flowing water for at least 20 minutes. Seek medical

attention immediately.

Ingestion Rinse mouth thoroughly. DO NOT INDUCE VOMITING. DO NOT GIVE

ANYTHING BY MOUTH TO AN UNCONSCIOUS PERSON. Seek medical

attention.

**Note** When seeking medical attention, always show the product label.

#### 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media: Water deluge or CO<sub>2</sub>.

**Unsuitable extinguishing media**: Dry powder extinguishers or foams.

**Special exposure hazards in fire**: Fire causes formation of toxic gases

Required special protective equipment for fire fighters: Use of self-contained

breathing apparatus to prevent contact with skin and

eyes.

## 6. ACCIDENTAL RELEASE MEASURES

**Personal precautions**: Use appropriate personal protective equipment as

detailed in section 8.

**Environmental precautions**: Do not allow runoff to sewer. If material has entered

surface drains, it may be necessary to inform local

authorities.

**Methods for cleaning**: Provide ventilation and confine spill. Collect and reclaim

or dispose in vented, dry, clean containers as hazardous waste. Containers with collected spillage must be properly labelled with correct contents and hazard symbol. Sweep up all residues using designated

cleaning equipment.

#### 7. HANDLING AND STORAGE

**Handling**: Ventilate well. Avoid breathing vapours. Use approved

respirator if air contamination is above accepted level. Do not use in confined spaces without adequate ventilation and/or respirator. Avoid spilling, skin and eye

contact.

Storage: Keep in cool, dry, ventilated storage and closed

containers. Keep containers tightly closed. Protect from light, including direct sunrays. Keep away from heat,

sparks and open flame

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Suggested limits: No exposure limits noted for ingredient(s). It is

recommended that exposure limits for chlorine (8 hr TWA 0.5 ppm, 1.5 mgm<sup>-3</sup>; 15 mins STEL 1 ppm, 2.9 mgm<sup>-3</sup>) be applied to minimise risks associated with this

product.

**General:** Use engineering controls to reduce air contamination to

permissible exposure level. Alternatively where this cannot be achieved, handle in naturally well-ventilated

area.

inhalation protection.

Hand protection (type of gloves, etc) Wear suitable chemical resistant gloves when

handling this product.

**Skin protection** Wear suitable chemical resistant clothing to

protect exposed skin.

**Eye protection** Wear goggles or safety glasses with side

shields when handling this product.
