The Cove Retreat Spa offers **unprecedented value**. With seating for five, this spa can help you create quality family time or simply offer sanctuary from everyday stress to couples or individuals. Powerful jets provide invigorating hydrotherapy to tense areas of the body. Plus, Nordic's exclusive **Dual Therapy System (DTS™)** offers gentler, whole-body therapy to compliment the traditional, more targeted jets. The versatile bench seat can be used as full body massage from the Whirlpool jet. We've added an illuminated waterfall plus the Northern Light LED's and cabinet downlighters on each corner to make the Retreat Spa the best possible value. (Height 34" x 70" x 80")

# Enjoy the benefits of Hydrotherapy

**Hydrotherapy** has been around as long as man has walked the earth and still to this day is the only recognised treatment that works as a natural pain reliever. In cases of joint problems and for people with more severe disabilities, hydrotherapy is extremely beneficial for restoring normal functions of the body.

People who Hot Tub regularly, **Feel Better**. This isn't a marketing gimmick used to sell Hot Tubs and Spa's, it is a proven health science fact. Regular use of a hydrotherapy Hot Tub stabilises your metabolism. This type of therapy automatically improves cardiovascular function and the respiratory system. More specifically hot water flowing over the body's muscle groups, removes lactic acids and other contaminants from muscle tissues, reducing pain.

Stress relieving benefits are equally as important. **Stress Reduction** is a proven medical fact with regular use of a Hot Tub / Spa. Although many features of soaking can calm feelings of stress, researchers have found that warm flowing water increases your body's natural production of endorphins, leaving you feeling relaxed and peaceful.
