

Polaris

480 PRO

Pressure cleaner

Polaris

480 PRO

Sturdy and efficient

The POLARIS 480 PRO, the latest cleaner in its category, is the fruit of research giving priority to performance and durability. The components are made of heavier, ultra-strong materials making the robot virtually indestructible. So as to ensure an optimum venturi effect, we have designed a face-to-face oriented 4-jet system providing maximum suction.

X4 JETS POWER

- 4 ultra-powerful jets for maximum suction
- High-performance long-lasting components
- Large Wide Trax® tyres
- Filter bag with zip fastener
- Rapid installation and settings
- Chain transmission system
- Automatic antilock recoil valve
- + **Accessories** (3 disposable bags, 3 sweep hose brushes, 1 additional strainer)

Type of system
Hydraulic pressure

Motorisation
Booster pump coupled to the filter system

Suction
4-jet venturi system

Travel
Random + automatic reverse

Litter capture
Separate bag + sweep hose

Guarantee
2 years

For use in
All types of pool

Booster pump power
minimum 1 hp / ideal 1.5 hp

Working pressure
2.6 bar

Suction size
6 cm

Dedicated sweeper socket line
16-bar rigid pipes

Weight
4 kg

Speed of travel
15 m/min

Hose length
9.60 m
