Exceptional Features

- **Superior flow efficiency** : for example 0,75 cv Max-Flo II® outperforms 1 cv Max-Flo®.
- **Extra-large capacity** leaf basket extends time between cleanings.
- **See-through strainer** cover lets you see when the basket needs cleaning.
- **Components molded of corrosion-proof reinforced thermoplastic** for extra durability and long life.
- **Motor power-end assembly can be removed without disturbing plumbing or mounting connections**, simply by removing 4 bolts.
- **Self-priming pump compatible with salt chlorination.**

Performance Max-Flo II

Performance Max-Flo II

Service-ease design provides easy installation and maintenance.

Drain plugs for an easy winterizing.

Complete With 1 1/2" Solvent Unions

See through strainer cover.

New easy open & close Cam-Lock lid design
