ZODIAC

SUPER G+

Automatic suction cleaner

ZODIAC, MASTERING THE ELEMENTS.

Renowned worldwide for the quality and reliability of its products in the aeronautical and marine sectors, Zodiac has now brought its expertise to swimming pools, to bring you a full range of pools, automatic pool cleaners, water treatment systems, heating systems and dehumidification units for swimming pools.

Backed by Baracuda technology, expertise and experience, Zodiac brings you the reassurance of top quality equipment in terms of both design and performance.

A real guarantee of efficiency and peace of mind!

High performance
cleaning from top to
bottom for all types
of swimming pools.

SUPER G+ High performance cleaning from top to bottom for all types of swimming pools.

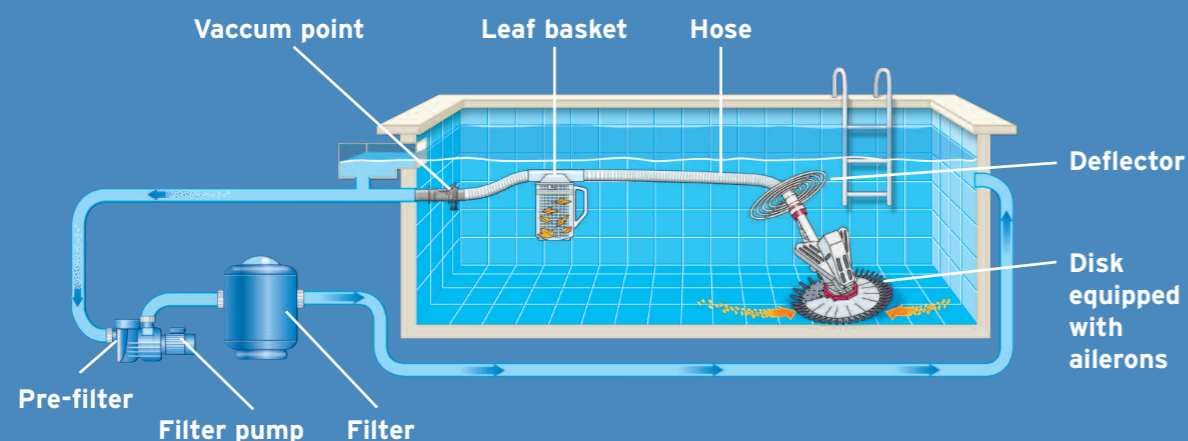

Automatic suction cleaner

► SUPER G+ : FOR USE WITH WHAT TYPES OF POOL?

POOL	In-ground pools.	
SHAPE	Rectangular, oval or custom shapes.	
BOTTOM	All types of pool floors (flat, gently sloping, diving area with complex slopes or diamond-shaped diving area).	
SURFACE	All surfaces (tiling, liner, Polyester skin, reinforced PVC or painted concrete).	

► SUPER G+ : ITS FUNCTIONING.

Super G+ uses a filtration system as a source of energy. Easy to install, it connects to the skimmer or the suction point without any need for additional equipment. The power from the pool's pump enables it to move around automatically and at random, to suck up debris, which is then stored in the pump basket and filter.

EFFICIENCY

- Carefully studied balance designed to ensure perfect adherence to the pool bottom and walls.
- **Anti-obstacle** thanks to a double cut-out wheel and two hose deflector wheels.

INDEPENDENT AND AUTONOMOUS

- Automatic adaptation to the filtration rate of your pool.
- The leaf basket delivered with Super G+ catches the leaves before they reach the pump basket.

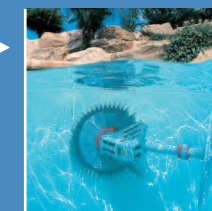

MULTI-PURPOSE

- Cleaning of pool walls and bottom.
- Super G+ adapts to all types of swimming pools.

MAXIMUM LIFE

- New generation Long Life Diaphragm technology.
- High resistance hoses.

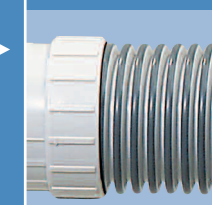

CLIMBS THE POOL WALLS. ►

◀ HIGH SUCTION POWER.

► HIGHLY RESISTANT TWO-TONE HOSES.

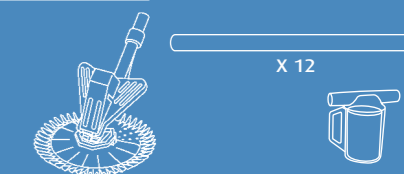

◀ LEAF BASKET

TECHNICAL CHARACTERISTICS:

HOSE LENGTH:	12 x 1 m hose sections
ROBOT DIMENSIONS (L x D x H):	40,5x46x36 cm
ROBOT WEIGHT:	1 kg 600
FILTERING SURFACE FILTRATION CAPACITY	} Pool filtration system
CLEANING WIDTH:	
MINIMUM FILTER PUMP POWER REQUIREMENT :	3/4 h.p
TRAVELLING SPEED:	5 m/min.

COMES WITH:

- 12 hose sections
- A flow tester
- An automatic flow adjustment valve
- A leaf basket

The "Diaphragm", exclusive technology by Zodiac, moves a step further for the very best cleaning results.

By inventing the **Diaphragm**, the motor component of hydraulic-suction pool cleaners, Zodiac revolutionised the swimming pool industry. This system is the result of exclusive expertise and know-how, and confers unique features to automatic pool cleaners: high-speed mobility, exceptional suction capacity for all types of debris, highly efficient even with low output pumps used in smaller pools, and super-silent operation.

But this technological gem has more to offer... Today, Zodiac improves the system and creates the "**Long-Life Diaphragm**", offering enhanced reliability thanks to the use of highly durable materials. Who else other than Zodiac, the pioneer of this technology, could go to such lengths to ensure maximum comfort for swimming pools?
