

Spa & Hot Tub Cleaner

250ml's per 1,500 litres of spa water

What is it?

Lo-Chlor Spa & Hot Tub Cleaner is a unique concentrated cleaner for spa pools, hot tubs and jetted spa baths.

Who needs it?

- Every spa or hot tub owner to regularly clean pipe-work.

What does it do?

- Cleans out undesirable elements harboured in the pipe-work.

What advantages does it have over other similar products?

- Specially formulated, as a concentrate, with enhanced cleaning ability.

Professional tips:

- Pipe work can harbour undesirable body fats, oils and soaps which result in noxious odours and discoloured water.
- This problem is particularly noticeable in those spas which retain water in the pipe-work, even when the spa has been emptied.
- Spa & Hot Tub Cleaner should be used regularly to eliminate these problems.
- Because the product contains acidic compounds, it is important that the system be fully flushed before using again.
- Regular use in commercial spas and spa baths is a necessity.
- Remember, Spa & Hot Tub Cleaner is not a biocide.

N.B. If used correctly Spa & Hot Tub Cleaner will assist in the removal of Biofilm from the system and associated pipe-work. Dosing should be carried out on a regular basis, ideally as a minimum on a twelve week basis (as per BISHTA guidelines) prior to drain down.
