

## Hydra-Slip Lubricant

### What is it?

Lo-Chlor Hydra-Slip Lubricant is a long lasting, heavy duty silicone lubricant designed to protect rubber and plastic parts from wear and tear.

### Who needs it?

- Any pool and spa owner should use it as an essential part of their ongoing equipment maintenance program.
- Every serviceman should carry it in their vehicle to use as and when needed.

### What does it do?

- Repels moisture and is perfect for use on o-rings, seals, hinges and automatic pool covers.
- It will not expand or weaken rubber parts and o-rings.
- It is specially formulated for plastics and rubber parts that come into contact with chlorinated water.
- It is "Non Staining" and is therefore ideal for all pool equipment.
- It is also great for a variety of marine uses and can also be used on diving equipment.

### What advantages does it have over other similar products?

- Its many uses in swimming pool and spa applications have been tried, proven and trusted for over 20 years!!
- Unlike some competitive products on the market, which are thin, runny, and only give a light coating, Hydra-Slip is very thick yet spreads easily to give an extremely thorough coating.
