

Stainaway

1 Litre treats up to 50,000 litres of water

What is it?

Lo-Chlor Stainaway is a highly concentrated Calcium Inhibitor specifically formulated to assist in the prevention of metal stains and scale build up in swimming pools, spas and hot tubs.

Who needs it?

- Any pool owner who has metal or iron staining in their pool.

What does it do?

- Reduces the formation of calcium scale and also reduces existing scale.
- It complexes dissolved iron and reduces rust discolouration.
- It complexes other dissolved metals including copper and manganese.

What advantages does it have over other similar products?

- Very easy and economical to use.
- It may be used in all types of pool finishes.
- Compatible with all recognised sanitisers and other pool additives.

Professional tips:

- Backwash filter before using.
- Stainaway must be allowed to mix thoroughly when added to the pool.
- For best results run pool pump for 24 hours.
- The product should be added again at regular intervals to prevent the deposition of new stains and also help with older ones.
