

Technical data		
Display/User interface	Large four line display with blue back light 6-key user interface Logical menu structure	
Measurement parameters/ranges	pH	0–9.99
	Redox	0–999 mV
	Temperature	0–49.9 °C (only for Pool Relax oxygen)
Regulation	pH regulation (pH minus or pH plus optional) Redox (dosing of liquid chlorine)	
Modes of operation	Automatic, Manual, Off	
Monitoring and safety functions	Flow of measuring water cycle, separate power supply for dosing pumps, level of pH canister, level of disinfection canister	
Alarm functions	Measured value alarm. (Alarm thresholds are adjustable on both sides) Dosing time alarm Level alarm for fill level monitoring of the dosing container	
Alarm relay	Potential-free	
Dosing pumps	pH and Redox:	1.5 l/h
	Oxygen:	3.0 l/h
Dosing counter-pressure	max. 1.3 bar	
Suction height	max. 3 m	
Communication	PoolConnect – wireless module for communication between Pool Relax and mobile phone via SMS (optional)	
Protection class	IP 54	
Electrical connection	System voltage 110-240 V, 50/60 Hz	
Dimensions	440 x 351 x 125 mm (W x H x D)	

The connection and the commissioning of the Pool Relax is reserved for trained specialists!

Pool Relax.  
Unwind and enjoy your pool.

**Reliable technology with a new design.  
Made in Germany.**

Crystal clear water with minimum effort – the Pool Relax demonstrates just how easy it is to achieve perfect water quality. The clearly structured menu and the large display provides simple and intuitive operation. The robust construction ensures reliable functionality. The Pool Relax sets new design standards: it is modern and elegant.

**Relaxation guaranteed.**

- Safe water treatment**

The Pool Relax ensures reliable and precise control of the set values relevant for optimal water treatment. The alarm function of the Pool Relax is activated in the event of fluctuations relating to the set values, or empty product containers, with acoustic and visual signals on the device.
- Simple operation**

Despite the various setting options, the Pool Relax is very easy to operate. All relevant functions are intuitive and can be set conveniently using the keyboard. The large four line display is clear and easy to read.
- Flexibility**

The Pool Relax is available in three care-options: chlorine, chlorine free using active oxygen or bromine. The treatment method of the Pool Relax can easily be converted at any time with minimum effort.
- Optimised reliability**

The use of high quality components combined with a sophisticated technical design ensures the Pool Relax carries out tasks reliably without disruption.
