THE NEW HIGH EFFICIENCY Water Cooled Pool Pump

SILENSOR[®] PRO
DAVEY

UK POOL STORE
ukps

Davey Pool. Quality like no other.

Davey's new SilensorPro Variable Speed pool pump offers water-cooled, super-quiet operation combined with high efficiency, making it the ideal choice for today's swimming pools.

Loss of prime protection
– minimizes damage if the pump runs dry

Extra-large 1.2 gallon leaf basket
– long intervals between cleaning

10 Filtration speeds plus Backwash mode
– easy for the professional and consumer to "set and forget"

High efficiency Variable Speed
– saving money for the consumer

Water cooled design that runs quieter with less vibration and noise – 55dBa on high speed

Easy to install and operate
– saves time for the professional

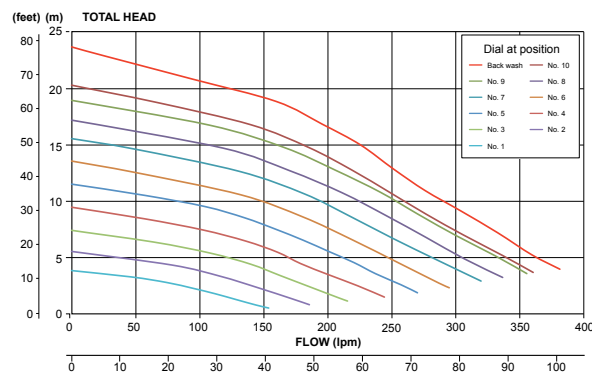

Thermal cut-out, no need for additional safety switch – saves money for the installer

SILENSOR^{PRO}
by DAVEY

WHY CHOOSE THE SilensorPro Series pump?

- **Full Variable Speed Control** – The new SilensorPro offers the pool owner and operator total control over the speed at which the pump needs to operate, from 1,500rpm to 3,600rpm.
- **Super Quiet** – Designed with a unique water cooled motor which captures noise and vibrations, allowing super-quiet operation, rated down to 50dBa. Your neighbours won't even know it's there.
- **Backwash Function** – SilensorPro is designed with a selectable backwash cycle that runs the pump for 2 minutes at 3,800rpm before shutting down. It provides for safe, reliable and easy operation of the pump when backwashing your media filter.
- **Dependable** – SilensorPro incorporates unique loss of prime protection to minimize pump damage if no water is available to the pump.
- **Convenient** – By water cooling the motor, SilensorPro does not require air ventilation, and gives installers more flexibility with clearances and pump positioning.

ELECTRICAL DATA	
Model	SP200SV
Voltage (V)	220/240
Supply Frequency (Hz)	50/60
Motor Input Power (W/hp)	116W/0.16hp @ Dial 1 488W/0.65hp @ Dial 5 1000W/1.34hp @ Dial 10 1316W/1.76hp @ Backwash
Motor Speed (rpm)	1500 to 3600
Backwash (rpm)	3800
Enclosure Class (IP)	45
Insulation Class	F

APPLICATIONS

Ideal for swimming pool applications such as:

- Filtration
- Suction & in-floor pool cleaning system
- Backwashing
- Water features
- Spa jet operation
- Solar pool heating
- Gas and heat pump spa & pool heating

WARRANTY
2 Years
