

No More Bugs

100ml per 10,000 litres of pool water

What is it?

Lo-Chlor No More Bugs is a unique formulation that helps remove insects from swimming pool water.

Who needs it?

- A pool owner who is fed up with insects, particularly water boatmen, persistently floating around in the family pool.
- Every serviceman should carry it in their vehicle. It will enable them to use in situations where their client is complaining of the situation in relation to insects.

What does it do?

No More Bugs has a unique non-foaming formulation which reduces the surface tension of the pool water, completely ridding the pool surface of floating insects. With reduced surface tension insects cannot float and they then sink to the bottom of the pool where they are either filtered or vacuumed to waste.

What advantages does it have over other similar products?

- Very economical to purchase
- Very easy to use
- It may be used in all types of pool finishes
- Compatible with all recognised sanitisers and other pool additives.
