

INVERTER VARIABLE SPEED PUMP

uk pool store
POOL PRODUCTS YOU CAN TRUST

Certikin
FLUIDRA

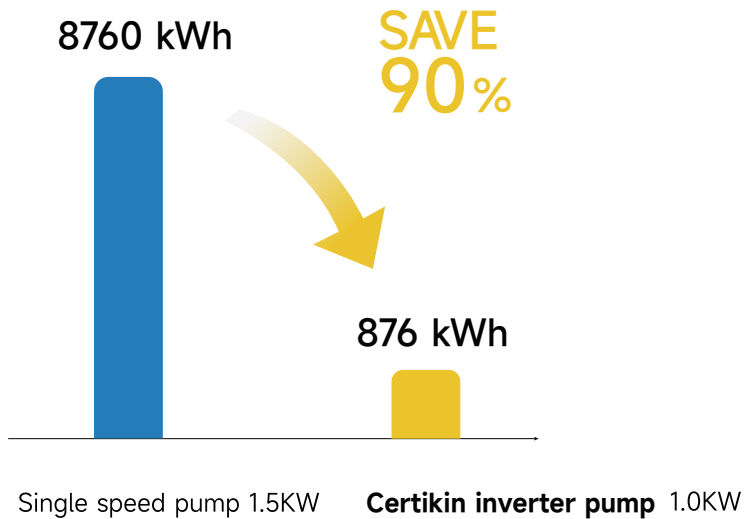

Thanks to InverSilence technology, the motor speed can be controlled precisely by 1 circle. When users need a backwash, the pump can run at 100% capacity. For daily filtration demand, which requires less flow, the pump can run at low capacity, which is extremely quiet and energy efficient. InverSilence technology also increases the life expectancy of the pump due to the PMSM(Permanent Magnet Synchronous Motor), high-quality S316 mechanical seal material and its full inverter drive.

▶ UP TO 10 TIMES SAVING

One year energy saving: **7884 kWh**

▶ Energy consumption comparison

▶ Electricity bill comparison

Assumptions: A 60m³ pool running 365 days per year for 16 hours per day. Electricity price is £0.25/kWh

ONE OF THE QUIETEST PUMPS IN THE MARKET

SMART & SIMPLE INTERFACE

4 timers for daily
operation

Running capacity from
30%~100%

Power consumption
reading

One-click backwash

OTHER FEATURES

PMSM

Efficiency class of motor: IE4

For increased efficiency and to reach extreme silence performance

Soft start

Start from 0 amp to rated amps steadily

External control optional: Digital input, RS485, Relay output

To control your pump with more choice

Ambient temperature: -10 - 42°C

Water temperature: 5°C - 50°C

Protection class:

Class F, IP55

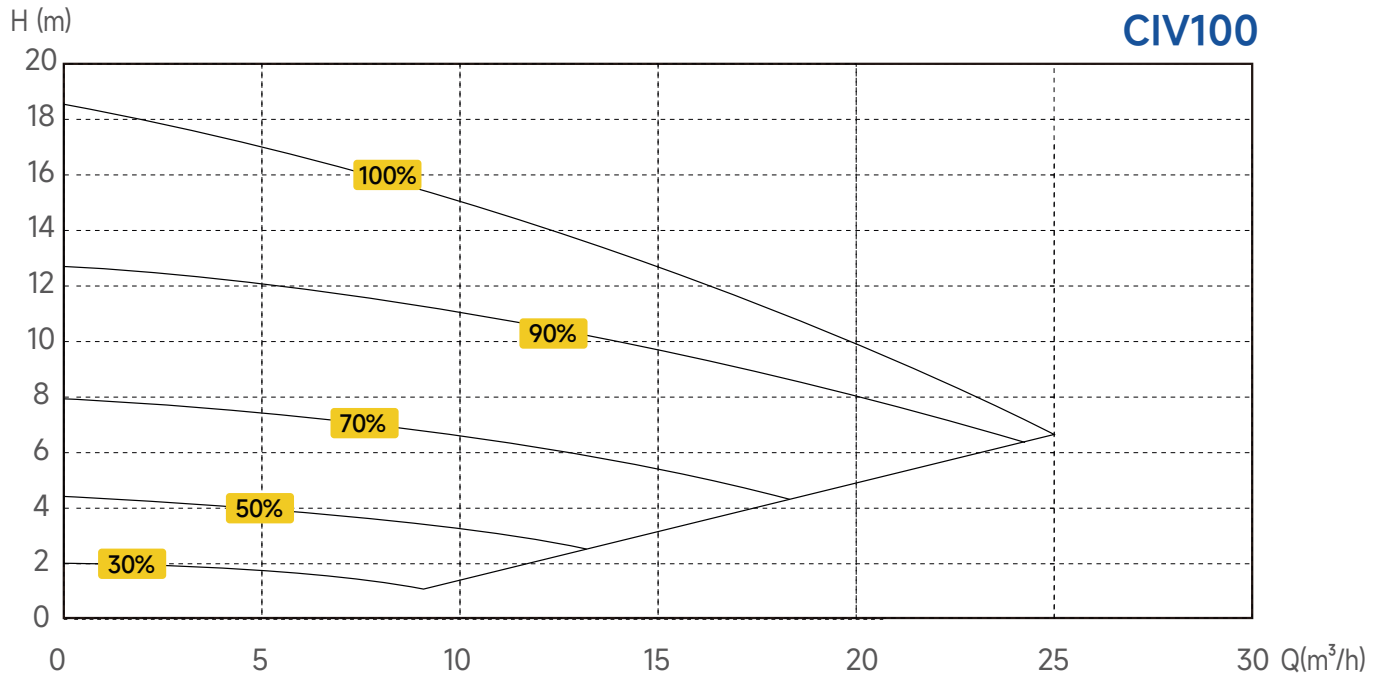

Salt water compatible

TECHNICAL PARAMETER

Model	Advised pool volume (m ³)	P1 (kW)	Voltage (V/Hz)	Current (A)	Maximum flow rate (m ³ /h)	Maximum head (m)	Circulation flow (m ³ /h)	
							10m	8m
